

# HOW TO DESTROY ANGELS, Keep It Together

I feel the skin that separates us,  
Start to fade  
And when i lye on top of you,  
I?m afraid  
I can see right through myself,  
Crystal clear  
I am disassembling  
I could disappear,  
Disappear

There is a voice inside of me,  
I don?t know  
And all his words keep echoing  
Trim and low  
I?ve been waiting for a sign to appear  
He has a message waiting for me  
But I don?t wanna hear  
I promise,  
I swear,  
I can not keep it together  
I can not keep it together  
I can not keep it together  
I can not keep it together

I can not keep it together  
I can not keep it together  
I can keep it together  
I can keep it together  
I can kee? it together  
I can keep it together  
I can keep it together  
I can keep it together  
I can keep it together  
I can keep it together  
I can not keep it together  
I can keep it together  
I can keep it together  
I can keep it together
