

Howard Jones, Love Is A Good Thing

We stay up late
We get no sleep
My body's aching
I got no money left
My friends say I'm losing it
You so bad for me
But that's a good thing
Love is a good thing

Every room we're in
Gets trashed from floor to ceiling
Your kiss is killing me
When I part from your sweet lips
My dreams of you are censored
Restless end in sight
But that's a good thing
Love is a good thing
Love is a good thing
Love is a good thing

The first law of love
Is all the rules could be re written
The second law of love
Is just what we make it
No question
That's a good thing
Love's a good thing

The first law of love
Is all the rules could be re written
The second law of love
Is just what we make it
No question
That's a good thing
Love's a good thing

The first law of love
Is all the rules could be re written
The second law of love
Is just what we make it
No question
That's a good thing
Love's a good thing
