

# Howie Day, Sweet

bittersweet your too complete ask me why  
you're over there and you're shy to stare you catch her eye  
when you do she looks at you with silent signs  
and i know that you glow like the sky

you've got nowhere to run  
but you've got someplace to be  
you've got nowhere to run  
but you've got someplace to be  
That's with me that's with me

you think you're so fucking sweet  
yeah you're so sweet

it's friday night your joke's alright you come with me  
you're falling hard and it's too hard to see me  
when you do she looks at you behind the line  
and i'll know that you glow like the sky

you've got nowhere to run  
but you've got someplace to be  
you've got nowhere to run  
but you've got someplace to be  
that's with me that's with me

give yourself away...
