

# Hubert Kah, Midnight Sun

Heard you saying goodbye my friend  
midnight sun's the place we'll meet again  
Christmas eve some night set in  
Didn't know the meaning came from within.

You can count on your friend  
count on your friend  
just follow the midnight sun  
midnight sun.

Yellow peeled off garden fence  
would you run and play with me again  
he maybe got to know my dreams and know my life  
happened in between now that he died.

I said call on my friend  
call on my friend  
we follow the midnight sun  
midnight sun.

Everyday I go insane  
walking on the mines that I have laid  
and maybe I will never see that midnight sun  
you'll be shining like a burning flame.

You can count on your friend  
count on your friend  
we follow the midnight sun  
and maybe you'll lend me your hand  
you can count on your friend  
to follow the midnight sun, midnight sun  
We follow the midnight sun, midnight sun.
