

Huey Lewis & The News, Is It Me?

Did I just say something wrong
Did I just stay out too long
Could it be you've seen something that you don't want to see in me
Never had the perfect plan
And I'm no superman
But I can't believe it's nobody else that I see
What about all of the things that you said to me
Is everybody crazy or is it me

I remember all the nights
I remember all the fights
I still hear the crazy things that you say to me
Everybody says you're gone
It's all gone on too long

People say you never really cared anyway
What about all of the things that you meant to me
Is everybody crazy or is it me

Is it me
Is it me
I don't know
If it's me
Tell me and I'll go
Tell me what you see
Is it me
