

Huey Lewis & The News, Stop Trying

(Chorus)

Stop trying, stop trying to call her,
She doesn't want your sympathy
Stop trying, stop trying to call her
She's exactly what she wants to be.

She goes up and down but never goes out
She's getting it all for free
She's shadow boxing loosing the bout
It's pretty easy to see

I know you've, you've seen a better sight
You say you really wanna help
You better open your eyes, hey

We see the morning face in the bathroom mirror

She's careful never to see
It tells a story of the sleepless nights
not what she seems to be

I know you've, you've seen a better days
You say you owe it to yourself
You're gonna change your ways

(Chorus to fade)
