

Huey Lewis & The News, We Should Be Making Love

We've been friends forever looking for the same thing
True love can be so hard to find
Maybe we've been looking in all the wrong places
'cause we keep coming back here everytime
Talking to each other
comparing our heartaches
confessing the ways we long to be satisfied
Maybe there's something going on here
Maybe there's something here for you and me
We should be making love
instead of wasting time with someone else
We should be making love instead of going home all by ourselves

Oh, now I've told you I want to be your lover
Why don't we discover where we go from here
I don't want no other
Do you feel it too everything we get together?
Telling our stories
comparing our heartaches
confessing the ways we long to be satisfied
comparing our heartaches
confessing the ways we long to be satisfied

Telling our stories
comparing our heartaches
confessing the ways we long to be satisfied
I know there's something going on here
You know it's so obvious to see
We should be making love
instead of wasting time with someone else
We should be making love instead of going home all by ourselves
