

# Huggy Bear, Fuck Your Heart

I'm hooked- drawn in again  
and I may as well confess  
You finger my spine enlarge my mind  
strapped into this electric chair  
Plases to be there smiling before squares  
No verdict was ever reached that I would care  
non-linear time I mainline  
non-linear time incubates my crushilepsy in and out of me  
crushilepsy shaking inside of me  
crushilepsy hitting me hit me  
crushilepsy a certain sensitivity and I'm crushed  
I black out again  
It's pleasure not to resist  
strapped into this electric chair  
No verdict ever got reached by a square  
No verdict about which I'd even care  
non-linear time mainline, non linear time fixes my ...  
crushilepsy in and out of me  
crushilepsy electricity  
crushilepsy vibrates deep in me  
crushilepsy drastic spectre of love  
Never thought of the crash  
into a dark star like you  
couldn't dream up a crash  
Dream was all I could do  
So you wanna team up?  
Cause it looks like you do  
Enable this crushilepsy- in and out of me  
crush- keep hurting me  
crush- profound brutality  
crush- electricity
