Hugh Cornwell, Leave Me Alone

Leave me alone Gimme some space Give it the zero Got out of my face Just take a powder Swallow it whole Just take a walk Out into nowhere

Leave me alone

Been here before
It always ends up the same
Got nothing to say
It's all got to do with fame
Give me a new road
Tell me it's paved with gold
Just take a flight
Up into foreign skies

Leave me alone

Don't care what you do Seems like it's all the same Spare me your garbage Spare me your shame Go take a hitch hike Go take a B road Go take the dirt sleep Go carry the can

Leave me alone
