

# Human Fortress, Light Beyond Horizon

Sun comes up  
blows the darkest night away  
Feel a year like just one day  
Don't look back  
To the way that you have gone  
'cause as hard as it may seem  
What's your fate, what's right or wrong within your life

A life's full of power, live fast just be free  
Don't care about a future to know what will be  
Your steps guiding forward on a way you don't see  
You're running through time  
"dream or reality "

What's your fate  
What is right and what is wrong  
On the way within your life  
If you feel good  
Let this day begin  
Clear up questions of today  
What's your fate, what's right or wrong within your life
