

Hundred Inch Shadow, are you blind?

every hour, every day
i can see their suffering
in a modern world where no one cares
that disease is everywhere
minor countries, major deals
they proceed with mass appeal
what did we do to make it right?
we're just blind...

only suffering, only hate
i don't want to live like that
there's no justice, only pain

what did we do to make it right?
try to find what is hard to find

you can meet them in your town
dirty, homeless, without pride
modern country, people starve
useless in this paradise
try to answer without a lie
what did we do to make it right?
are you selfish? do you mind?
are you blind?
