

Hundred Reasons, Falter

In my hands, good fortune
Caress my equal, with slightest touch
The sound of your voice keeps me still
And I'm sorry I, avoid your questions
And I'd never falter now we're even
(EXPLAIN WHY YOU WILL)
Take while you can its never even
(WHILE WE LAY STILL)
And I'd never falter now we're even
(EXPLAIN WHY YOU WILL)
Take while you can its never even
(WHILE WE LAY STILL)
A place to run, it's colder
And peace of mind takes,
It's own time for us
And in the same breath, we argue
And it must be a sign of closeness I guess
And I'd never falter now we're even
(EXPLAIN WHY YOU WILL)
Take while you can its never even
(WHILE WE LAY STILL)
And I'd never falter now we're even
(EXPLAIN WHY YOU WILL)
Take while you can its never even
(WHILE WE LAY STILL) Here alone
And I'd never falter now we're even
(EXPLAIN WHY YOU WILL)
Take while you can its never even
(WHILE WE LAY STILL)
And I'd never falter now we're even
(EXPLAIN WHY YOU WILL)
Take while you can its never even
(WHILE WE LAY STILL) (X2)
