

# Hurt, Cold Inside (2004)

Cold on the inside  
In phases my lights die  
Staring through ardent eyes  
I love you, but I lied

Cold on the inside  
In me the little child  
Holds thoughts that I hide  
Dead though I seem a lie

But it should be okay, they said  
Just forget the pain, they said  
Well, I could always lie  
And yet the doctor said that I would be just fine  
Yeah the whitecoat said that I  
Would live until I'm  
Cold on the inside of me  
I'm cold on the inside of me

Cold on the inside  
In me the lights die  
I love you, but i lied  
As tears drop the moist flies

But it should be okay, they said  
Just forget the pain, they said  
Well, I could always lie  
And yet the doctor said that I would be just fine  
Yeah the whitecoat said that I  
Would live until I'm

But it should be okay, they said  
Just forget the pain, they said  
Well, I could always lie  
And yet the doctor said that I would be just fine  
Yeah, they call me well  
But I might live  
Too long to die on the inside of me  
Cause I'm cold on the inside of me
