

Hybrid, Falling Down (Kosheen DJs Mix)

Open my eyes,
But I can't see where you are,
Put out my hands,
But I can't reach that far.

Holding you in,
The taste is still on my lips,
The need to feel,
Close, touch, fingertips.

Like rivers,
We all run, into the sea,
I can hear them, the waves are
Crashing on me.

Tumbling, tumbling.
Tumbling, tumbling.
(We move things too slow)

Tumbling, tumbling.
Tumbling, tumbling.
(We'll be like the fall)

Tumbling, tumbling.
(We move things too slow)

Tumbling, tumbling.
(We'll be like the fall)

I'm falling down,
Falling through oceans of clouds,
Only fallen angels sing this loud.

Look down on my face,
I write,
Only for you,
Please understand, the words
I need you to.
I'm not the one, to read,
My secrets inside,
It all starts here,
With no end in sight.
If only you'd catch me,
Safe in your arms,
Your love would,
Be shouldered,
Guiding me down.

Tumbling, tumbling.
(We move things too slow)

Tumbling, tumbling.
(We'll be like the fall)

I'm falling down,
Falling through oceans of clouds,
Only fallen angels sing this loud.

Tumbling, tumbling.
Tumbling, tumbling.
Tumbling, tumbling.
Tumbling, tumbling.
Tumbling, tumbling.
(We move things too slow)

Tumbling, tumbling.
(We'll be like the fall)

I'm falling down,
Falling through oceans of clouds,
Only fallen angels sing this loud.

Falling down.
Over and over.
Falling down.
