

# Hybrid, Steal You Away

Foolish  
Makes no sense to me  
Wasteful  
Where fear breeds deceit  
Bullets screaming  
from out of nowhere  
And tanks roam the streets

It steals you away...only denied  
It steals you away...from being alive

Grazed  
Calling out our names  
Bleeding hearts  
that feel no shame  
Take the burden  
lay down the blame  
The situation's changed

It steals you away...only denied  
It steals you away...from being alive

It steals you away...only denied (4x)

It steals you away...

It steals you away...only denied...
