Hybrid, Steal You Away

Foolish
Makes no sense to me
Wasteful
Where fear breeds deceit
Bullets screaming
from out of nowhere
And tanks roam the streets

It steals you away...only denied It steals you away...from being alive

Grazed
Calling out our names
Bleeding hearts
that feel no shame
Take the burden
lay down the blame
The situation's changed

It steals you away...only denied It steals you away...from being alive

It steals you away...only denied (4x)

It steals you away...

It steals you away...only denied...
