

# Hypocrisy, Black Forest

God of evil, of the clustering Hell.  
If I fade, as I grave.  
I talked to myself, for the ultimate pain.  
God fall in your command.  
For , the lord will ever believe me.  
Several oppression.  
Make me prickles.  
I command the forces of darkness.  
Bring the eternal power on me.  
For , the lord will ever believe me.  
Several oppression.  
Path to Hell, regressed now.

I walk in the darker forest.  
We live and regret an pounding the doom.  
Abounding itself from the goal.  
And all the blind are alone.
