

Hypocrisy, Black Forest

God of evil, of the clustering Hell.
If I fade, as I grave.
I talked to myself, for the ultimate pain.
God fall in your command.
For , the lord will ever believe me.
Several oppression.
Make me prickles.
I command the forces of darkness.
Bring the eternal power on me.
For , the lord will ever believe me.
Several oppression.
Path to Hell, regressed now.

I walk in the darker forest.
We live and regret an pounding the doom.
Abounding itself from the goal.
And all the blind are alone.
