

# Hypocrisy, Disconnected Magnetic Corridors

Breaking down the surface in the night.  
It's like running around the evasive ground.  
It can't be done.  
For the first time I tried to really try.  
It's not easy for a blind man, to see the Sun.  
I've seen the future and the end is here.  
Please forgive me, 'cause I've been there.  
Seas ran by and by and far and wide.  
It's easy to see right through your fingers and hide.

Fighting for the freedom nowhere found.  
Feeling old, too old to fight.  
Running around the circles in the night.  
How you're supposed to keep it all inside?  
I've seen the future and the end is near.  
Please forgive me, 'cause I've been there.  
It's not too ? left for us to breathe.  
That's my story.  
The end is closing in.  
Seas ran by and by and far and wide.  
It's easy to see right through your fingers and hide.

Seas ran by and by and far and wide.  
It's easy to see right through your fingers and hide.  
Breathing as my body dies to get by.  
The light behind the cracks of glass is so bright.
