

# Hypocrisy, Through The Window Of Time

??? slowly exterminate.  
We must fight for the right  
Or there will be nothing left  
In end the end we will conquer  
What was once our world.  
We will take it back.  
Through the window of time.  
One by one we will break you down.  
We will fight till the end.  
We will fight, we will kill them all.  
Till there is no one left.  
We have been destorying other worlds  
This is just another planet in line.  
They try and control us, and make us slaves.  
But I know we'll survive.  
In end the end we will conquer  
What was once our world.  
We will take it back.  
Through the window of time.  
We will  
It will be ???  
We will take it back.  
Through the window of time.
