

# I See Stars, Car Alarm Symphony

Everything was picture perfect  
Riding high but staying low  
Stick around...  
For the show  
Dreams scripted to those who care  
This is a constant pattern  
Keep quite for a week or two  
Now I'm running in circles  
Holding on to something you do  
This just might give you the cue  
Everything was picture perfect  
Held still for a very long time  
For the man to draw his perfectly straight lines  
Now there's something wrong about this scene  
I see you but I don't see me.  
Everything thing was picture perfect [x2]  
Something has to happen  
It's happening fast  
Maybe she'll see what's  
Right in front  
Holding on to something you do  
This just might give you the cue  
Diamonds forever, we can't, go back  
[Chorus]  
Everything is picture perfect  
(You said diamonds were forever baby)
