

# I See Stars, Mistaken For A Westend Mistry

On the darkest days  
You told me that you were there  
And that you'd never regret [3x]  
Keep scout for, for the trees  
They will shift and catch fire  
It'll all come crashing down on you  
No taking back, no listening  
If we can come for with your apologize  
It's to much to make up for  
You told me  
What are we waiting for [2x]  
On the darkest days  
What can go wrong  
What can go wrong  
When the two of us are together  
Never thought it would come down to this  
[Repeat]  
What are we waiting for  
We had everything  
That we ever wanted
