

I See Stars, Mistaken For A Westend Mistry

On the darkest days
You told me that you were there
And that you'd never regret [3x]
Keep scout for, for the trees
They will shift and catch fire
It'll all come crashing down on you
No taking back, no listening
If we can come for with your apologize
It's to much to make up for
You told me
What are we waiting for [2x]
On the darkest days
What can go wrong
What can go wrong
When the two of us are together
Never thought it would come down to this
[Repeat]
What are we waiting for
We had everything
That we ever wanted
