

15, Can I Get A Witness

CHORUS

Can I get a witness to how I feel
Someone to confess what I feel is real
Gonna need help to win his heart
Can I get a witness to let him know
Someone to confess I want him so
Please say you'll give my love a try
Can I get a witness

All I do is dream about him
My friends tell me
Girl you need to play it cool
You've got to let him come to you
I can't deny it, can't get him off of my mind
Everywhere I go I see his image all the time

CHORUS

Can I get a witness to how I feel
Someone to confess what I feel is real
Gonna need help to win his heart
Can I get a witness to let him know
Someone to confess I want him so
Please say you'll give my love a try
Can I get a witness

Can I, can I, can I get a get a, can I get a witness

People say I'm going through a phase, just give it time
It will fade away (fade away)
But they don't know what this love's about
You see I've searched my soul
And it all leads straight to you
Show me you understand and make this dream come true baby

CHORUS

Can I get a witness to how I feel
Someone to confess what I feel is real
Gonna need help to win his heart
Can I get a witness to let him know
Someone to confess I want him so
Please say you'll give my love a try
Can I get a witness

I'm lost inside of you
Can't help what I go through
I'm willing to give my heart and soul to you
Tell me you feel this way tonight and every day
You are the very best part of me baby

CHORUS

Can I get a witness to how I feel
Someone to confess what I feel is real
Gonna need help to win his heart
Can I get a witness to let him know
Someone to confess I want him so
Please say you'll give my love a try
Can I get a witness

CHORUS

Can I get a witness to how I feel
Someone to confess what I feel is real
Gonna need help to win his heart
Can I get a witness to let him know
Someone to confess I want him so

Please say you'll give my love a try
Can I get a witness
