

IAMX, The Negative Sex

The Negative Sex

Pay no attention to obedience

The kids and wishes fix and forgotten for my self-defence

We all want to fuck ourselves and rape the world

So the art of a cult will prevail

In vanity; not god, not love

Oh no, they can't leave it alone

Oh no, we can't leave it alone

Because a negative sex was born into a bloodline

The negative sex is powerful for our lifetime

Show a man from examp? the alternative

It's all ammunition for the gender bend and the bedroom twist

They say that the fashion's just not feminist

But the sweet and the turn-on sits in the laps of the girls with the balls and the hits

Oh no, they can't leave it alone

Oh no, we can't leave it alone

Because the negative sex was born into a bloodline

The negative sex is powerful for our lifetime

The negative sex was born into a bloodline

The negative sex is powerful for our lifetime

Sex for a lifetime

Sex for a lifetime

Sex for a lifetime
