

# Ian Eskelin, Shout

Im gonna try and talk to you  
Have a conversation  
In a language that breaks through  
Any explanation

Wanna tell you bout the way i feel  
But nothing says it better than to show its real

Shout  
Shout it out  
Shout it out loud  
My actions will be heard  
Even louder than my words  
Gonna shut my mouth and  
Shout

Bite my lip and hold my tongue  
But i cant keep quiet  
Making noise until im numb  
But you just wont buy it

Let me tell you bout the love i found  
Its something you do not just talk about

Shout  
Out loud  
Come on now

Shout  
Shout it out  
Shout it out loud  
In everything i do  
I wanna be living proof  
Without one single sound  
Shout
