

# Ibridoma, Sadness Comes

I'll drown my mind into this sea  
While the dark side takes control.  
Nowhere to hide because I am the problem,

My star is black and burned .  
My mind is divided in two parts,  
I cry while I smile who can save me .

Out in the dark.  
Domination of mind,  
Out of control,  
So I'm dead .

I feel the darkness born inside of me  
And it tries to take control.  
I see the end of my life  
I'm so tired, while the sadness comes.

I hear voices to talk with me,  
When good luck changed the side.  
I said your name from my prison cell,  
Dangerous experiments to find the cure.  
Have you ever been abandoned?  
Through death I will reborn from this madness.

I feel the darkness born inside of me  
And tries to take control.  
I see the end of my life  
I'm so tired, while the sadness comes.

I'm waiting,  
Trees are bare.  
Winter comes,  
In this darkness.

I feel the darkness born inside of me  
And tries to take control.  
I see the end of my life  
I'm so tired, while the sadness comes.

I feel the darkness born inside of me  
And tries to take control.  
I see the end of my life  
I'm so tired, while the sadness comes.
