

Ida Jenshus, Longest Way Home

Walked all the way back home last night
Couldn't get hold of you
Tried hundred times to reach you on the phone
Another thing that you can't do
I know you're out there on the town
Maybe it's another girl
Did you find what you were searching for
Did you find a different world

Did you find love out there
Did you my dear
Did you find it all
Will you write me off your list
When you've found what you've missed
When your hunting is done
I believe it's over now
Baby, I'm done
It's been the longest way home

Well I hear you're happy now
A new house and a new car
I hope she treats you like a child
Hope she cares
'Cause so did I
I hope one day you'll feel
Just like I did when you broke free
That this girl of your dreams
Breaks your heart
And you wish you were with me
