

# Idelle Martinez, Dane (With You)

dance dance dance dance  
dance dance dance dance, makes me wanna dance

## \*Verse 1\*

when I saw you girl I knew,  
you were something out of a story book  
and I told my heart that we gotta take one look  
I imagine both me and you, doing what lovers do  
holding hands in the park making love girl after dark  
the sounds of the birds and the bees, bringing you to your knees  
is all I wanna do yeah

## \*Chorus\*

dance dance dance dance  
dance dance dance dance, makes me wanna dance  
I just wanna dance with you  
I just wanna roll with you  
I just wanna be the one who really gets to know you  
I dont care, and i dont mind  
I will spend the whole of my time  
this is what it takes for me to hold it down and make you mine

## \*Verse 2\*

every bass man like the first  
taking us roght back to the the birth of our love  
seems to me as if I will never get enough  
thinking about the waythat we first kissed - it was a night like this  
we stayed together everyday  
ever since the...  
the sounds of the birds and the bees, bringing you to your knees  
is all I wanna do yeah

## \*Chorus\*

dance dance dance dance  
dance dance dance dance, makes me wanna dance  
I just wanna dance with you  
I just wanna roll with you  
I just wanna be the one who really gets to know you  
I dont care, and i dont mind  
I will spend the whole of my time  
this is what it takes for me to hold it down and make you mine (2)

## \*Verse 3\*

the only thing between us is the floor  
the DJ's playing our favourite song  
so lets not take to long  
I wanna dance all through the night with you  
dance dance daaaance, yeah

I just wanna dance with you  
I just wanna roll with you  
I just wanna be the one who really gets to know you  
I dont care, and i dont mind  
I will spend the whole of my time  
this is what it takes for me to hold it down and make you mine (2)
