

Idiot Flesh, Chicken Little

The sky is falling, gotta tell the king.
The sky is falling and everything.
The sun come down, tell us a story.
The sun come down, tell us a long story.
If I break my hand

The sky is falling, gotta tell the king.
The sun come down and everything shine
Don't save me

Think I lost my keys, it's a disaster.
If I sold my car we could get there faster.
If I take your hand, we could start walking.
If I kiss your mouth, we could stop talking.

If I break your heart, we could get there faster.
If I lost my mind, it's only plaster.
If I break my hand, I could get there faster.
If I lost your mouth, it's only plaster.

The sky is falling, gotta tell the king.
The sky is falling and everything shine
Don't save me
