

Idiot Pilot, Cruel World Enterprise

Concentrate on making love
Concentrate on making love
Concentrate on making love
Concentrate on making love

Now that we found you out
And feel this deception
We'll hold our ground
We will not stay
In a stagnant house where animals bane

Concentrate on making love
Concentrate on making love
Concentrate on making love
Concentrate on making love

The wolves have finally shown there teeth
And filled this perception
With a menacing howl
And a snapping jaw
We will concentrate on ruining your face

Concentrate on making love
Concentrate on making love
Concentrate on making love
Concentrate on making love
