

Idiot Pilot, Strange We Should Meet Here

The phone we wake up
Friends for a time Friends for a time

I will be so
Glad to call you mine
So glad to call you mine

The valley we love
We laughed a thousand times
We died a thousand times
Ask me to give
All of the time
All of your time

Come on, I killed you anyway
You remind me
Come on, face the gun
Of someone I used to know
Come on, I killed you anyway
You remind me
Come on, face the gun
Of someone I used to know

A moment we die
Our souls will re-align
A murder so divine
We'll heaven hell
Everything is fine, everything is fine

Come on, I killed you anyway
You remind me
Come on, face the gun
Of someone I used to know
Come on, I killed you anyway
You remind me
Come on, face the gun
Of someone I used to know.
