

# Iggy Pop, I Wanna Live

I see my future shuffling  
A shakey step at a time  
I got no choice but careful  
Thank God I've done my crime  
The tools I see on tv  
Can't stand it when they fake  
A prick's a prick at any age  
Why give one a break?

I wanna live  
A little bit longer  
I wanna live  
A little bit longer  
I wanna live  
A little bit longer  
I wanna live live live live live

The soul is in the eyeball  
For anyone to see  
I'm better than a Pepsi  
I'm cooler than MTV  
I'm hotter than California  
I'm cheaper than a gram  
I'm deeper than the shit I'm in  
An' I don't really give a damn

I wanna live  
A little bit longer  
I wanna live  
A little bit longer now  
I wanna live  
A little bit longer  
I wanna live live live live live

Step up it's fight time  
Kick scratch and bite time  
Ain't talking about no more fun  
But that don't bother my bad ass none

I wanna live  
A little bit longer now  
I wanna live  
A little bit longer  
I want to live live live live live  
A little bit longer now  
I wanna live live live live live  
Just a little bit longer  
I wanna live live live live live  
Just a little bit longer  
I wanna live live live live live  
Just a little bit longer
