

Iggy Pop, I Won't Crap Out

I'm standin', in a shadow, hating the world
I keep a wall around me, block out the herd
It's a nerve-wreck place to be, it kills real
Quick
You gotta scrape the concrete off your dick
But we're gonna live so happily
In a faraway place, just you and me
If I don't crap out
The sun will shine and give us a hug
The world will sing like a happy bug
If I don't crap out
