

Ilani, Make Me Feel

Sometimes it's like you wanna break it down
But you keep it quiet
And I can't hear a sound
Everybody's rushing, tell me what you want
Don't give up the fight
Come into my life

So come closer, and make me feel,
Take my hand and make me feel, a
Make me

It's not the way that you look
It's not the way that you talk
It's just the way that you move and you make me
I got you under my skin, I'm so loving your style

So come closer, and make me feel
Take my hand and make me feel,
Make me

If you wanna show
If you wanna stay
Go, go, do it, do it, your way
If you wanna show
If you wanna stay
Go, go, do it, do it, your way

So come closer, and make me feel,
We put it down, we bring it up
Make it shine, shine, so they know where we at
So come closer, and make me feel
So come closer, and make me feel,
