

# IIIScarlett, Danse Macabre

We are livin' in a police state  
Situations getting grave  
Right now  
I'm takin' it  
We are livin' in a police state  
More than your rights at stake  
Right Now  
I'm takin' it  
Heaters got my town  
Infiltratin' the air yeah  
Locking down the masses  
Even to scare ya  
We don't have to deal with this shit  
To serve and protect yo I ain't buying it.  
Do it for the power  
They're abusing the glory  
Strip away the badge  
And you'll still be out

Fightin' the fight for the people right  
We are, livin' in a police state  
Situations getting grave  
Right now  
It's over yeah.  
We are, livin' in a police state  
More than your rights at stake  
Right now  
I'm takin' it  
Get ready cuz its time to go  
Heaters movin' in and before you know it  
They've got us all surrounded  
The call has been sounded  
This is how its goin' down tonight.  
Tonight now we set things right  
And besides who'd wanna live and die  
In this mess we made  
Its so depraved  
What happened to my freedom  
And you'll find me  
Lying on the floor  
Thinking about war  
Thinking about war  
Don't wanna do this anymore  
They paraded  
I'll be waiting for  
The perfect time to strike  
We are livin' in a police state (we are)  
Situations getting grave (we are)  
Right now (we are)  
We are takin' it  
We are livin' in a police state
