

# Imagine Dragons, Emma

Emma stood in front of me  
Tellin' me what I'm supposed to be  
Jackie loves to run and hide  
Give her love, and she will die

Calling me, oh my oh my  
Cross my heart and hope to die  
Bourbon streets and bicycles  
Holding you in carnivals

Baby is my love too old for you?  
Baby is my love too old for you?  
'Cause Emma I'm for you  
Emma I'm for you

Dinner bells and loaded gun  
Innocence is bound to run  
Enemies are playing fun  
But don't you touch that golden sun  
Innocence and sentiment  
Is owned by hope it's where you're at  
Baby is my love too old for you?  
Emma I'm for you  
Emma I'm for you

Hell and silence, I can fight it, I can fight it  
Hell and silence, I can fight it, I can fight it  
Hell and silence, I can fight it, I can fight it  
Hell and silence, I can fight it, I can fight it

Hell and silence, I can fight it, I can fight it  
Hell and silence, I can fight it, I can fight it  
Hell and silence, I can fight it, I can fight it  
Hell and silence, Emma I'm for you

Emma I'm for you  
Emma I'm for you, you, you, you  
Emma I'm for you, you, you, you  
Emma I'm for you  
Emma I'm for you  
Emma I'm for you  
Emma I'm for you  
Emma I'm for you
