

# Imagine Dragons, Friction

Get down with the victim  
We both know you need them  
You're stuck in the middle of all irrelevance

And your heart is beating  
Cause you know that you gotta  
Get out of the middle and rise to the top now

When you've made it  
Won't you tell me what to do?  
Cause i'm playin it  
All wrong (x2)

You can't fight the friction (So, ease it off)  
I can't take the pressure (So, ease it off)  
Don't tell me to be strong (So, ease it off)  
You can't fight the friction,  
So ease it off

And get into the system  
We both know you'll need one  
At the tip of the needle,  
It's taking over you

And your heart is beating  
Cause you know that you gotta  
Get out of the middle and rise to the top now

When you've made it  
Won't you tell me what to do?  
Cause i'm playin it all wrong (x2)

You can't fight the friction (So, ease it off)  
I can't take the pressure (So, ease it off)  
Don't tell me to be strong (So, ease it off)  
You can't fight the friction,  
So ease it off

Oh, why can't you let go  
Like a bird in the snow  
This is no place to build your home

You can't fight the friction (So, ease it off)  
I can't take the pressure (So, ease it off)  
Don't tell me to be strong (So, ease it off)  
You can't fight the friction, so
