

# Imagine Dragons, Real Life

She says that the world is a broken mess  
It's always on her mind  
She cries at the news when the shots ring out  
Every single time

No, I cannot fix it, no, I cannot make it stop

So I said, "Turn your phone off, only look me in my eyes  
Can we live that real life, real life?"  
Oh, hey, "Turn your phone off, only look me in my eyes  
Can we live that real life, real life?"

Prays on her knees as the towers fall  
To a God she does not know  
She's begging him to stop the mess  
The Boston bombs blow (Ooh)  
She says, "How could I ever believe in something  
That would step aside and watch?"  
And I got no words to say 'cause I think I lost my faith  
But I thank you for the day when everything will be okay

But no, I cannot fix it, and I cannot make it stop

So I said, "Turn your phone off, only look me in my eyes  
Can we live that real life, real life?"  
Oh, hey, "Turn your phone off, only look me in my eyes  
Can we live that real life, real life?"

I wish I had the answers  
Something you could hold too  
Only thing that's real to me is  
You

"Turn your phone off, only look me in my eyes  
Can we live that real life, real life?"  
Oh, hey, "Turn your phone off, only look me in my eyes  
Can we live that real life, real life?"

Oh, hey (Real life, hey)  
Real life, real life  
Oh, hey  
Real life, real life  
Oh, hey
