

Impaled Nazarene, The Burning Of Provinciestraat

Trapped like an ape that's what you are
In this shit hole which I will burn down
My lust for revenge is stronger than hate
To see you suffer goes beyond my dreams
Squeal like a pig you are burning alive
Sub-human torch along goes your wife
I wonder what kind of shit gave you life
This is the fact I will make you to die
One dark night flames are sky high
Along the block burns the fucking scum
And my sadistic laughter can be heard
All over Belgia!!!
