

Impellitteri, The Iceman Cometh

Run for your lives

Run

How do you like it when they say

You're nothing but a punk

Make fun of the clothes you wear

Treat you like your scum

Beat you down and crushed your pride

Laughing at your pain

Called you fat and pulled your hair

But they're all gonna pay

Parents don't know teachers don't care

When they're laughing in your face

Scars that won't heal memories won't die

Until they're all in their place

The Iceman cometh

Run for your lives

The Iceman cometh

Run for your lives

Morbid thoughts to fill my brain

Dark anxiety

Voices whisper am I sane

And red is all I see

Planning out your darkest fate

Faces in the mud

Time has come there'll be no wait

Makes them pay with blood

Knock knock remember me

The kid you cornered, punched and teased

Blackened eyes, broken nose

Now's your turn

Here's a fucking black rose

[Solo]

Parents don't know teachers don't care

When they're laughing in your face

Scars that won't heal memories won't die

Until they're all in their place

Nobody knows nobody cares

When they're spitting in your face

Scars that won't heal memories won't die

Till you put them in their place

The Iceman cometh

Run for your lives

The Iceman cometh

Run for your lives

The Iceman cometh

You better run for your lives

The Iceman cometh

Run for your lives
