

In Grid, Love out of time

For all the love you made
It's so as like the pressure zone
What else's in your mind?
You can put a sign
When we're here alone
It's like a one night stand
You're gonna watch at hand
Cause serving something going on
What are you thinking of
It is not enough
You've got me for your own
I wanna love out of time
I wanna see that you're mine
So much that I can take
Before I start to fake it all
I see that if you could
Like you know I should
Baby, what is wrong?
With little time to share
I wish that you'd be there
With your mind and soul
And standing at the door
So do give me more
It's for you alone
I wanna love out of time
I wanna see that you're mine
With I did addition
I wanna love out of time
With no conditions
The moment's gonna last forever
Out of time, out of time, out of time
I try to free your mind
I wanna love out of time
I wanna see that you're mine
I wanna love out of time
I wanna love out of time
