You promised me
Just me and you
You promised me the moon and the sun, the birds and the sky
You promised me a wonderful life they were underlast
You promised me all timethat I never kept
You promised me where the roses are gold but soon I forgot
You promised me
Just me and you
You promised me I could be your queen and you be my king
You promised me you ..white Im dressed where is your ring
You promised me your time of your kisses of life
So try to show .. possible things cause Im wasting my time
You promised me
Just me and you
Tu est foutu
Tu tu tu tu tu tu..
I dont know what to do in my life
But I know my rulemusic a second chance
You promised me (3 times)
