

Incognito, Do Right

(J.P. Maunick/R. Hayden/G. Harvey)

(Do right)

(Do right)

Everytime I say

Come closer my dear

I need you to be by my side

And every night I feel

You're driftin' away

Is there something you're trying to hide

I can tell what it means

That look in your eyes

'Cos I've seen it before

And it holds no surprise

(Do me right)

You've been holding me tight

But your mind's on the new girl in town

Now you know that you're lying

And there's no use denying

'Cos this is the time baby

Chorus:

Do right

(Baby do right by me)

(Just want you to)

Do right

Baby do right by me

Bop ba dop bop ba dop bop ba dop (Hey)

Bop ba dop bop ba dop bop ba dop

All that I need from you

Is that comes straight from the heart

You have to be cruel to be kind

And if I should lose you now

I may hurt for a while

But I'll leave all the sadness behind

Life's not always the way that I want it to be

But given the choice I would rather be free

(Do me right)

You've been holding me tight

But your mind's on the new girl in town

Now you know that you're lying

So there's no use denying

This is the time baby

Chorus

Bop ba dop bop ba dop bop ba dop (Hey)

Bop ba dop bop ba dop bop ba dop

Chorus

Repeat (Fade)
