

Incognito, Positivity

(J.P. Maunick/R. Bull/R. Hope Taylor)

(Oh)

(Get up face the power)

(Oh, hey)

It's early in the morning

The light outside is blinding

You don't want to know

You're so tired of complainin'

'Cos your nine to five ain't workin'

While your dreams just seem to grow and grow

Nothing's clear

It's so confusin'

Intuition's left you

There's no one left to turn to

Until you hear a voice within your heart

Telling you which way to go (Don't you know)

Chorus:

You have got to learn to please your mind

Positively (Oh)

Tryin' to find a way to spend your time

In positivity

Spend the days here waiting

And all your nights in wishin'

Seasons come and go

As you sleep the tide is risin'

One by one your dreams are drownin'

While you stare and watch the waters flow

Nothing's clear

It's so confusin'

Intuition's left you

There's no one left to turn to

Until you hear a voice within your heart

Telling you which way to go (Don't you know)

Chorus

Don't spend your days

Watching the way

(Face the power)

(Got to please your mind)

Chorus

Repeat (Fade)
