

Incubus, Anna-Molly

A cloud hangs over,
It's a city by the sea,
I watch the ships pass and wonder if she might be,
Out there and sober as a well for loneliness,
Please do persist girl its time we met and made, a mess

I picture your face in the back of my eyes,
A fire in the attic a proof of prize,
Anomaly, anomaly, anomaly...
Doo doo doo doo do doo doo doo doo doo

A cloud hangs over,
And mutes my happiness,
A thousand ships couldnt send me back from distress,
Wish you were here,
I'm a wounded satellite,
I need you now put me back together make me right

I picture your face in the back of my eyes a fire in the attic a proof of the prize,
Anomaly, anomaly, anomaly
I'll crawl to your name,
I'll bend to the earth,
Nobody else will ever compare,
Anomaly, anomaly

Wait there is a light,
There is a fire illuminated attic,
Fate or something better I could care less,
Just stay with me a while,
Wait there is a light, there is a fire defragmenting the attic,
Fate or something better I could care less,
Just stay with me a while

I picture your face in the back of my eyes a fire in the attic a proof of the prize,
Anomaly, anomaly, anomaly,
I'll crawl to your name,
I'll bend to the earth,
Nobody else could ever compare,
Anomaly, anomaly

Wait there is a light,
There is a fire illuminated attic,
Fate or something better I could care less,
Just stay with me a while,
Wait there is a light there is a fire defragmenting the attic,
Fate or something better I could care less,
Just stay with me a while
