

Incubus, Light Grenades

We're given a garden,
And gave back a parking lot
(We got about fifteen minutes to go...)
Before this audience starts
Throwing tomatoes, yeah!
(It's not the end, there is more show!
We got about fifteen minutes to go!)
Survived the plague
Floated the flood
Just peeked our heads above the mud
No one's immune
Deafening bells,
My God, will we survive ourselves!?
I'm not an alarmist
But someone should break the glass
(and pull that red T-lever down!)
To get their attention
start lobbing the Light Grenades
(that burst and blinf them with the truth,
An eye for an eye, a tooth for a tooth!)
Survived hte plague
Floated the flood
Just peeked our heads above the mud
No one's immune
Deafening bells,
My God, will we survive ourselves!?
Survived hte plague
Floated the flood
Just peeked our heads above the mud
Wip off your face, we've come this far
Come on! Remember who you are!
(Remember! Remember!)
Come on! Remember who you are!
(Remember! Remember!)
Come on! Remember who you are!!!
