Incubus, Underground Killers

They kill for a reason
They'll strike anyone
Doesn't matter how old or young
Pay'em big cash, they'll give'em a slash
Explain how it should be done
A shot in the head
The man cut in half
Tortured 'till death
You'll never see him back

(CHORUS) **Underground killers** They are everywhere Killing for money They don't care Leaving their victims covered with blood Underground killers Will make a mess Whose killing plans have been set Murdering their victims without mercy They promise to make it worse Tell'em their next mission And they'll give'em death Burn him alive A high voltage jolt A stab in the back They pomise you'll see him dead

(LEAD)

Slay the victim to death Dead bodies everywhere Brutality is their authority Killers are not afraid of death

(CHORUS) **Underground** killers They are everywhere Killing for money They don't care Leaving their victims covered with blood Underground killers Will make a mess Whose killing plans have been set Murdering their victims without mercy They promise to make it worse More massacre for the long future generation Their customers are the only police source of information You've paid'em in full For the dirty job they've done Now you must die Like the other ones.
