

# Indigo Girls, Don't Give That Girl A Gun

She's got a case against me a jury of my peers  
The rage of the righteous screaming in her ears I'm not dignified anymore can't say I didn't call  
When I say I love you she don't hear me anymore  
Don't give that girl a gun I made a bad connection she says I went astray  
Jumped ship abandoned my post I didn't think I lost my way  
But oh how the mighty I saw her crack a smile I don't got a chance for redemption  
She don't believe in the miracle mile  
Take the first shot baby it'll be real clean I'm your girl strong and mean  
Take a second shot baby it'll be real cool I'm your fool  
Don't give that girl a gun I said hold me closer cause something's happening  
Why can't we come together?  
She said, "I doubt we ever will again."  
Don't give that girl a gun
