

Ines, Once In A Lifetime (Eurovision 2000)

I don't wish to go and turn back time
I can move the mountains higher than high
Don't look back hold on to your spirit
Keep moving every minute
I know it seems a little premature
To live for the moment I'm just a girl
Don't look back hold on to your spirit
Keep moving every minute
What you give is what you get
There ain't no regrets

refr:

If you give me wings and reason why
Then I'll be an angel in your sky
Because I'm seventeen only once in a lifetime
Read my mind
I'm ready why are you standing still
Are you coming with me I know you will
We can search the world together
Come on baby now or never
What you give is what you get
There ain't no regrets
If you give me wings
I believe there's a better place always somewhere else instead
I believe the grass is greener if
I chase the magic no one else can find
If you give me wings
